

VoiceField — All APIs Needed

Every account/key for a fully working setup, and why. Rows 1–7 are mandatory; 8–12 are optional extras.

#	API	Why we need it	What you give us	Cost
1	Stripe	Take card payments on invoices & deposits.	Verified Stripe account + team invite (or live keys).	1.5% + 20p per payment
2	Google	Job calendar sync + customer reviews.	Manager invite on your Business Profile + shared work calendar.	Free
3	Resend	Sends invoices, quotes & reminders by email.	Nothing to send — usage billed to you.	Per email sent, you pay
4	Twilio	Text-message reminders & engineer-ETA texts.	Nothing to send — usage billed to you.	About 4p per text, you pay
5	Cloudflare R2	Storage for job photos, signatures & certificates.	Nothing to send — usage billed to you.	Per GB stored, you pay
6	DeepSeek AI	The AI brain: quotes, chatbot, review replies, job reports.	Nothing to send — usage billed to you.	Fractions of a penny per request, you pay
7	Sarvam voice AI	Voice quoting & spoken engineer notes.	Nothing to send — usage billed to you.	Per minute transcribed, you pay
8	Xero / QuickBooks (optional)	Invoices & payments sync to your accounts — no double entry.	Click the connect link we send, or invite us as an advisor.	Your existing plan
9	GoCardless (optional)	Collects service-plan payments by Direct Debit.	Invite us to your account or send an access token.	1% + 20p per collection
10	Trustpilot (optional)	Every finished job triggers a review invitation automatically.	API key + business unit ID (Trustpilot → Integrations).	Needs a paid plan
11	WhatsApp (optional)	Reminders & engineer-ETA messages on WhatsApp.	Just tell us which number to use.	1,000 conversations/mo free
12	Outlook (optional)	Calendar sync if you use Outlook instead of Google.	Click the connect link we send.	Free

You pay all usage costs — direct to the provider or itemised on your VoiceField bill. We add no markup.

Optional later
